

OX4000-2x2 Unit

4000 CFM Media Filtration System
2.0 H.P Belt Driven Fan

The Blue OX4000 unit was developed primarily for larger installations where there is a heavy contamination load and a lot of area to be cleaned. These multi-unit setups have higher filter cloth-to-air ratios, resulting in a significant savings in maintenance and less overall units required. Our 2x2 Units have four times the filter surface area of a single unit, resulting in over three times the filter life. The OX4000 filter systems can be used for any application where contaminates, mist, or smoke is created. Additional unit setups, cabinet and filter options available. All units have a Three Year Warranty on all parts besides filters.
